Next Step: DMV Permit Test @Home Option

The DMV has implemented @Home Driving Knowledge Test (the written permit test) online via @Home Driving Knowledge Test. Your student can take the written permit test online once they are within 30 days of their 15th birthday (or if they are 15 or over) from home. OR they can take the permit test at the DMV when you take them to get a permit. (They MUST be 15 or older to go to the DMV and get the permit).

If your student takes the permit test online, they will still need to go to the DMV to get a permit once they are 15 yrs old. The online permit test does not give you a permit, a visit to the DMV is still necessary. Please see the link at the bottom for a review before taking the permit test.

TopCops is not able to help with the Permit Test online. Please contact DMV with questions

Students MUST be within 15 days of 15th birthday to proceed either @Home OR DMV

- The @Home Driving Knowledge Testing application has built-in security features to prevent fraud. The application uses photo captures to ensure the applicant taking the test is the person who signed up to take the test. Tests cannot begin until a photo is taken, and photos will be taken at random during the @Home Driving Knowledge Test to prevent others from providing information or other resources. During the follow up appointment, DMV licensing technicians will cross reference images taken during the @Home Driving Knowledge Test to prevent fraud. This ensures the applicant who took the test is the one in front of the licensing technician getting their credentials processed.
- Payment for the @Home Driving Knowledge Test can be made with American Express, Mastercard, Visa or debit cards.
- @Home Driving Knowledge Test fees:
  - First time: Free + $5 testing fee + $1.50 credit/debit card processing fee= $6.50
  - Subsequent times: $11.15 state retest fee + $5 testing fee + $1.50 credit/debit card processing fee = $17.65
- Test takers will have 60 min to complete the exam.
- Test takers younger than 19 will need a parent or guardian to be a proxy for the test; test results will be emailed to the proxy.
- If your student is old enough to take the permit test - go to the @Home Driving Test to get started, the code they request is your pre-registration number (you already have this code) - it is

important to note that it will allow a person to take a test EVEN if they are not old enough to be eligible to do so. Please make sure your student is within 30 days of their 15 bday to take the test,
